PEORIA – The Illinois Department of Transportation announces that road work is under way on IL 29, just south of Mossville in Peoria County.

The project consists of the replacement of the structure carrying IL 29 over Boyd's Hollow, paved median construction, resurfacing, and guardrail improvements.

This week, traffic patterns will change by having two-way traffic traveling in the existing northbound lanes in order to complete construction on the southbound lanes. This traffic pattern will remain in effect for approximately three months. At that point, two-way traffic will use the southbound lanes for three months while construction is completed in the northbound lanes.

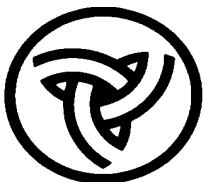

The entire project is scheduled to be completed in November.

Please slow down and use extreme caution while driving through all work zones.
